

## COVID 19 SAFETY PROTOCOL

We are a health care provider. The health of you, our patients, our communities, and our staff is our primary concern.

### Health screening

- Patients who have been ill or have been exposed to someone who is Covid-19 positive within the past 2 weeks will be asked to reschedule/not be scheduled sooner than 14 days.
- We will take a non-contact temperature of everyone as they enter.
- Those who are flagged by screening will be asked to reschedule. Thank you for your understanding.

### Social distancing

- Appointment times will be 1 hour apart. Accommodations will be made for families.
- For new patients, please download patient information and office policy forms from our website: [inlandoptometry.com](http://inlandoptometry.com). Complete forms and email us at [inlandoptometric@yahoo.com](mailto:inlandoptometric@yahoo.com) prior to your appointment.
- Please check into your appointment from your vehicle by calling 909-463-4655.
- Multiple patients in the office will be avoided if possible. In rare instances where there are multiple patients in the office, we ask that social distancing is maintained as much as possible.

### Protection

- Staff will wear additional protective gear including goggles, masks, and face shields.
- All patients and visitors, except those under the age of two (per the CDC), will be asked and required to wear a mask to their appointment.
- Hand sanitizer will be provided for staff and patient use.

### Cleaning and sterilizing

- All optical equipment, lab equipment and surfaces will be sanitized with CDC approved disinfectants immediately between patients.
- Bathrooms will be sanitized in between each user.
- Frames that are tried on will be sanitized before being displayed again.
